WHAT OUR CLIENTS HAVE SAID

"New West provided a knowledgeable trainer who can interact well with the 'levels' and corresponding needs within the class."

"Participant-paced instructions on how to build a Crystal Report."

EDUCATION & TRAINING

Have you implemented a new system lately? Have you experienced turnover in staff that is key to your perioperative system's success? Has your business environment changed since your perioperative system was implemented?

All those events create gaps in the knowledge base your department needs to be successful as a business team.

We believe that your ability to attain your goals is directly related to user and management knowledge.

New West Consulting's education services include a wide range of topics, all related to the successful use of your system investment. We also provide education for software vendors and conferences.

New West is approved by the California Board of Registered Nursing to provide educational contact hours for continuing education credit to nurses (Nursing Provider #CEP 14062).
